Cable Data Production Process

Benefits of the CableDataProducer:

- One program - different machines
 - Flexible printing
 - Can be used with a variety of inkjet printers
 - Can be connected to the AV
 - Orders can be loaded with a barcode scanner
- ... And furthermore
- Easy to use
 - Can be individually customized
 - Can be upgraded flexibly

Manufacture Cables Flexibly!

With the **CableDataProducer**, you have complete control of your machine - from simple cutters to fully electronic insulation strippers.

Printing with multiple inkjets is also possible, of course: Basically every desired printing position can be selected.

Even small printing distances measuring **a few mm** are easy to implement.

Your data is in an electronic format? No problem:

The **CableDataProducer** can be customized to fit your needs. It goes without saying that you can easily load orders using a barcode scanner.
