

CableDataProducer

Cable Data Production Process

Benefits

- One program - different machines
- Flexible printing
- Can be used with a variety of inkjet printers
- Can be connected to the AV
- Orders can be loaded with a barcode scanner

Manufacture Cables Flexibly!

With the **CableDataProducer**, you have + complete control of your machine - from simple cutters to fully electronic insulation strippers.

Printing with multiple inkjets is also possible, of course:

Basically every desired printing position can be selected. Even small printing distances measuring a few mm are easy to implement.

Your data is in an electronic format?

No Problem, The **CableDataProducer** can be customized to fit your needs. It goes without saying that you can easily load orders using a barcode scanner.

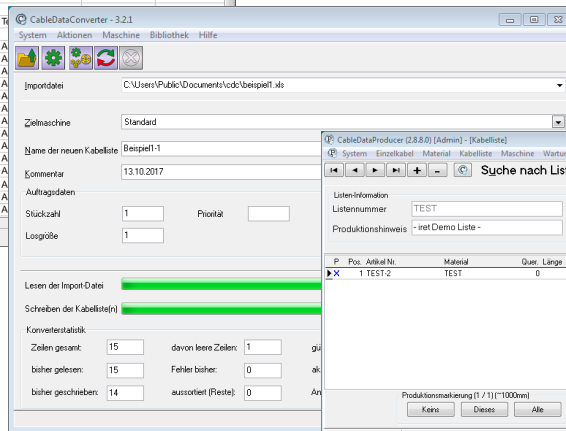

...and furthermore

- Easy to use
- Can be individually customized
- Can be upgraded flexibly
